USCINCPAC INSTRUCTION 6300.1G

Subj: MILITARY FAMILY ADVOCACY COORDINATING COUNCIL (MFACC),  
HAWAII

Ref: (a) HRD 79-75, 23 May 79  
(b) DOD Directive 6400.1  
(c) DOD Directive 6400.2  
(d) DOD Directive 6400.3

1. Purpose. To establish policy and procedures of the Military Family Advocacy Coordinating Council (MFACC), Hawaii and to improve the overall effectiveness of individual military service family advocacy programs in Hawaii in accordance with references (a) through (d). This instruction is completely revised and should be reviewed in its entirety.

2. Cancellation. USCINCPACINST 6300.1F.

3. Background. Efforts to deal with family violence problems began in 1979, following a report by the General Accounting Office (GAO) indicating that family violence problems in the military community appeared to be more prevalent than in civilian society (reference (a)). The report concluded that lack of inter-service coordination, full-time personnel, and program money prevented the Services from making progress in the development of family advocacy programs. Since that time, the Family Advocacy Program (FAP) directive, reference (b), has been issued to establish a DOD FAP, Family Advocacy Committee, and Military Family Resource Center, and assigned specific responsibilities. The DOD issued a second directive, Child and Spouse Abuse Report, to implement reference (c) by assigning responsibilities and prescribing reporting requirements associated with child and spouse abuse. A Family Advocacy Command Assistance Team was established, reference (d), to function as an on-call mobile resource to provide advice and assistance in cases of child sexual abuse that involve DOD-sanctioned activities throughout the world. In February 1981, at the direction of the United States Pacific Command (USCINCPAC) Surgeon, an MFACC was established.
